USB C to DVI External Video Adapter with USB-A Hub, USB-C PD Charging & Gigabit Ethernet Ports, 1920 x 1080 (1080p)

MODEL NUMBER: **U444-06N-DGU-C**

Highlights

- Supports USB DisplayPort Alternate Mode for transmitting video
- Supports DVI single-link video resolutions up to 1080p (@ 60 Hz)
- Supports true 10/100/1000 Mbps Ethernet network speeds
- Supports USB 3.1 Gen 1 data transfer rates up to 5 Gbps
- USB-C Power Delivery (PD Charging) port connects to wall charger to power connected computer
- PD Charging port supports power input up to 20V 3A
- Plug-and-play—no software or drivers required

System Requirements

- USB-C device that supports USB DisplayPort Alternate Mode
- DVI-enabled display

Package Includes

- U444-06N-DGU-C USB 3.1 Gen 1 to DVI DisplayPort Alternate Mode External Video Adapter with USB-C PD Charging
- Owner's manual

Description

The U444-06N-DGU-C USB 3.1 Gen 1 to DVI DisplayPort Alternate Mode External Video Adapter supports USB DisplayPort Alternate Mode for displaying video on a DVI monitor or projector via your computer, laptop or tablet's USB-C port. It's an ideal tool for multitasking, editing documents, or giving presentations at trade shows and conferences.

No software, drivers or external power supply is needed. Connect the adapter's USB-C male plug to the USB-C port on your device. Then, connect the adapter's DVI female port to a monitor using a DVI cable (such as Tripp Lite's P561-Series) to see full DVI video. The U444-06N-DGU-C supports DVI single-link video resolutions up to 1920 x 1080 (1080p) at 60 Hz and DVI digital transfer rates up to 6.75 Gbps (2.25 Gbps per channel).

The U444-06N-DGU-C includes an RJ45 Gigabit Ethernet port. Connect to a network with a UTP cable, such as Tripp Lite's N201-Series Cat6 cables, and enjoy true 10/100/1000 Mbps Ethernet speeds.

The USB 3.1 hub port connects USB-A peripherals, such as a thumb drive or printer. It's backward compatible with previous USB generations, and supports USB 3.1 Gen 1 data transfer rates up to 5 Gbps.

The USB-C Power Delivery (PD) charging port supports power input up to 20V 3A (60W). It powers the device that the U444-06N-DGU-C is plugged into, as well as a peripheral plugged into its USB-A port, by connecting the charging port to a USB-C wall charger.

Features

Easy to Add a DVI Display

- Supports USB DisplayPort Alternate Mode for transmitting video to a DVI display via your computer, tablet, laptop or smartphone's USB-C port
- Ideal for multitasking, viewing spreadsheet data, editing documents and giving presentations
- Plug-and-play—no software, external power supply or drivers required
- Supports DVI single-link video resolutions up to 1920 x 1080 (1080p) @ 60 Hz
- Supports DVI digital transfer rates of 6.75 Gbps (2.25 Gbps per channel)

RJ45 Gigabit Ethernet Port

- Supports true 10/100/1000 Mbps network speeds

USB-A Hub Port

- Connect USB peripherals, such as a thumb drive or printer, to your device
- Backward compatible with previous USB generations
- Supports USB 3.1 Gen 1 data transfer rates up to 5 Gbps

USB-C Power Delivery Port for Charging Portable Devices

- Supports power input up to 20V 3A (60W)
- Connects to USB-C wall charger to power connected devices

Specifications

CONNECTIONS	
Side A - Connector 1	USB C (MALE)
Side B - Connector 1	DVI-I DUAL-LINK (FEMALE) (WIRED TO DVI-D SINGLE-LINK)
Side B - Connector 2	USB 3.0 A (FEMALE)
Side B - Connector 3	RJ45 (FEMALE)
Side B - Connector 4	USB C (FEMALE)
WARRANTY	
Product Warranty Period (Worldwide)	1-year limited warranty
